- LiPo bags are required if you plan to charge your battery (no exceptions). Failure to use the bag after a warning will result in you being asked to leave.
- LiPo Battery Emergency - If a LiPo battery starts swelling, overheating or smoking, act immediately. Put it straight into the metal safety bin next to the charging rack and close the lid.
- Everyone is responsible for charging their LiPo batteries correctly and safely. If you are not sure how to charge them properly, ask someone for help. If unsafe charging is noticed and continues after a warning, you may be asked to leave The Dojo.
